Chief, ICAPS

25 May 1949

Assistant Director, Reports and Estimates

ORE Review of its Production Mission

1. The attached file is submitted for your information in the belief that the results of the Committee's investigation of the intelligence production of ORE will eventually lead to recommendations for interdepartmental action.

2. Without pre-judging the conclusions to which the Committee will eventually come, I might say that we will probably recommend a rather drastic revision of NSCID's 1 and 3, at least.
